Forecast For Scotland
Issued by Met Office Aberdeen
at 0400 on Sunday 26 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly cloudy, patchy rain, hill snow. Dry, bright in North.

Today:
Patchy rain and snow pushing northwards during the day with chilly southeast winds. Sleet possible to lower levels at first but snow becoming increasingly confined to hills during the day. Northern Scotland and Northern Isles staying dry, bright. Cold everywhere.

Tonight:
A mostly cloudy and less cold night. Still some patchy light rain with snow on the hills at first. A few heavier showers will affect the West Coast later.

Monday:
Overnight patchy rain becoming confined to Northern Isles during morning with still a few showers near West Coast. Otherwise mostly dry and becoming brighter. Milder with light southerly winds.

Outlook for Tuesday to Thursday:
Rain clearing on Tuesday with drier, brighter weather following. Some wet, windy weather developing during Wednesday and Wednesday night, then drier, brighter weather returning during Thursday.
